Dear Parents,

Warm greetings from METAS Adventist School.

We hope you and your family had a refreshing and safe summer vacation.

The school was originally scheduled to reopen for all classes on June 1, 2026. However, after carefully reviewing the prevailing weather conditions and the ongoing heat wave affecting our region, the school management has decided, in the best interest of our students' health and well-being, to postpone the reopening for Classes Nursery to VIII.

Classes for Nursery to VIII will now commence from Monday, June 8, 2026.

Classes for IX to XII will continue to reopen as scheduled from June 1, 2026, considering the academic requirements and board-related preparations for senior students.

However, after thoughtful consideration, the school firmly believes that protecting our young children from exposure to the severe heat conditions is far more important at this time. The possibility of heat exhaustion, dehydration, and related health concerns among younger children cannot be overlooked.

As a school, we consider the safety, health, and well-being of every child entrusted to our care as our foremost responsibility. This decision has therefore been taken purely as a precautionary and caring measure, keeping the best interests of our students at heart.

Further updates, if any, will be communicated through the school's official communication channels.

We deeply value your understanding, cooperation, and continued trust as partners in ensuring the welfare of our children. We sincerely regret any inconvenience this decision may cause.

With warm regards,

Principal

METAS Adventist School
